on 5 & 6 May 2009

ISLAMIC FINANCE AND FUNDS IN LUXEMBOURG: Opportunities and Challenges

The Luxembourg financial centre is positioning itself as a domicile of choice for Islamic finance and, in particular, Shariah-compliant funds. A steadily growing community of professionals is actively collaborating to develop a world class service in a stable and well regulated environment.

This conference, with a focus on Luxembourg as a jurisdiction, is an ideal opportunity for anybody wishing to become familiar with Islamic finance or to network with practitioners and experts in the field.

Day one is an “awareness day”, designed to provide a thorough overview of Shariah compliant products and comparing these with conventional methods and instruments.

During the second day, five panels will bring together international experts and local players to discuss practical issues and the services Luxembourg is able to offer Shariah compliant funds.

Luxembourg institutions that are interested in inviting their international clients are encouraged to forward this “Save the Date” to them.

Further information is available on the IFBL website (www.ifbl.lu).

We look forward to meeting you!
